Check out our website at www.binnsandstevens.com

When you spread LIQUIDOW™ Liquid Calcium Chloride
on unpaved roads, a lot of problems clear up.

*™ Trademark of Occidental Chemical Corporation

CALCIUM CHLORIDE ATTRACTS MOISTURE; THIS IS WHAT MAKES IT AN EXCELLENT DUST CONTROL AGENT. IT IS PRODUCED FROM NATURAL BRINE DEPOSITS FOUND UNDERGROUND SO IT IS SAFE TO THE ENVIRONMENT. DUST CONTROL IS NOT TOTAL DUST ELIMINATION.

A DUST CONTROL PERMIT IS REQUIRED BY THE COUNTY PLEASE RETURN THE PERMIT AND \$10.00 TO THE IOWA COUNTY ENGINEER'S OFFICE BY MAY 4TH, 2022 FOR 1ST APPLICATION.

*** PERMITS RECEIVED AFTER MAY 4TH WILL BE \$30.00. ***

WE CANNOT APPLY DUST CONTROL ON IOWA COUNTY ROADS WITHOUT THE APPLICANT HAVING A PERMIT. WE DO NOT NEED A COPY OF COUNTY PERMIT.

DUE TO WEATHER, ROAD, & TRAFFIC CONDITIONS 2 APPLICATIONS ARE RECOMMENDED

A MINIMUM LENGTH OF 400' IS REQUIRED
PRICES FOR THE 2022 SEASON (TAX INCLUDED)

CALL FOR PRICE

IOWA COUNTY
2022 ANNUAL DUST CONTROL PERMIT

FEE - \$10.00 Paid _____

Annual Dust Control Sections

This permit is issued to allow application of temporary dust control on the county rock road system and is subject to the conditions set forth as follows:

All dust control permits must be returned each year to the County Engineer's office with \$10 permit fee. Office hours are 7:00 a.m. to 3:30 p.m. This year's deadline is as follows:

Deadline Date for all Applications: May 4, 2022
**** Any late permit filed after May 4, 2022 will be \$30.00 ****

The County Engineer's Office must be notified and the application of dust control coordinated with the County prior to the application in order to prepare the road surface at no cost to the permit holder. ALL dust control must be applied AFTER the County has prepared the road surface; this includes the 2nd application. After notification to applicant, dust control contractors shall apply dust control within 48 hours, weather permitting. The County shall not be held responsible in the event contractors apply dust control products prior to preparation of the road surface. Early application of dust control or applying dust control without coordinating application with the County may result in the blading of that section of roadway as the County deems necessary. Re-applications will be at the cost of the applicant.

The permit holder is responsible for obtaining a dust control contractor and the contractor's application fee. Dust control must be applied by an Iowa County Approved Applicator. Calcium Chloride is the preferred dust control application in Iowa County.

If only 1 Application is applied:

90 days after the application is applied the maintenance of the road shall revert back to Iowa County to be maintained.

If 2 or more Applications are applied:

On October 1st the maintenance of the road shall revert back to Iowa County to be maintained.

Sealcoat Sections

Permit holders who use **oil/chip seal** shall be responsible for maintenance of their own dust control sections, and if they do not attend to pot holes, the County Engineer shall order the sections scarified or bladed after which said section will revert to a granular surface.

Policy on Grading

Applicants shall be given ONE warning call by the County Engineer's Office to fix potholes on any dust control. Cold Mix to fix potholes can be found, free of charge, at the Iowa County Shop. You must call the office before entering the Iowa County Shop site. If the roadway is not fixed within 5 business days the County shall use a maintainer to restore a safe roadway.
