When you spread LIQUIDOW™ Liquid Calcium Chloride
on unpaved roads, a lot of problems clear up.

*™ Trademark of Occidental Chemical Corporation

Calcium Chloride attracts moisture; this is what makes it an excellent dust control agent. It is produced from natural brine deposits found underground so it is safe to the environment. Dust control is not total dust elimination.

DUE TO WEATHER, ROAD, & TRAFFIC CONDITIONS 2 APPLICATIONS ARE RECOMMENDED

A MINIMUM LENGTH OF 300' IS REQUIRED

LEE COUNTY DUST CONTROL POLICY – ROAD PREPARATION

Upon receipt of listing of applicants, Lee County will blade and rock areas in need prior to the application of dust control. Lee County will attempt to not blade dust control areas after the first application up until October 15TH. If roadways develop chuck holes and rough surfaces and blading is necessary it will be performed. Service to the traveling public takes precedent over individual dust control.
