After completing this permit, please return it to your contractor before the deadline. Your contractor will then send a copy to the Muscatine County Secondary Road Department for approval. If submitted before the deadline, this will also be the county's prompt to prepare the road as deemed necessary, which may or may not include blading and/or rock. Failure to timely submit an application and/or properly mark the treatment area may result in substandard dust control quality as the county may deem it necessary to disturb the treated area. Permit applications submitted after the deadline will be subject to a \$10.00 fee, made payable to Muscatine County Engineer, 3610 Park Ave West, Muscatine IA 52761.

I, the applicant, have contracted with the above contractor to apply a dust control product to a Muscatine County Road. **I have read the Muscatine County Dust Control Regulations** and am aware that the County may, at any time deemed necessary, blade through this dust control spot or add rock. **I am also aware that in October my dust control spot will be bladed or rocked as needed for winter preparation.**
